Work Experience

Jul 2024 – present
Istanbul, Turkey

Frontend Developer, Beymen

- Developed and maintained frontend features for internal web portals, including social media dashboards, cargo tracking dashboards, and internal job listing integrations, using Angular.
- Designed and implemented dynamic UI components to enhance user experience and accessibility. Integrated RESTful APIs and optimized data fetching for better performance.
- Implemented bug fixes and performance enhancements following Scrum methodology.
- Managed tasks and tracked progress using Jira; version control handled via Bitbucket.
- Designed Figma prototypes for the mobile portal, including dark and light themes, ensuring a consistent and modern UI.
- Collaborated with cross-functional teams, including backend developers and product managers, to ensure smooth project delivery.

Technologies Used: **Angular 2+, TypeScript, SCSS, Figma, Jira, Bitbucket, Scrum Methodology, Jira**

Apr 2024 – Jun 2024
Istanbul, Turkey

Frontend Developer Young Talent, Mobven

- Developed DayStory, a full-stack web application using React.js, enabling users to manage their daily notes and events.
- Integrated AI-powered visualization to generate dynamic images based on user inputs.
- Led the end-to-end development process, including coding, deployment, and maintaining the live website.
- Collaborated with iOS, Android, backend, QA, and business analysis teams, ensuring seamless integration across platforms.
- Strengthened teamwork and communication skills through cross-functional collaboration.

Technologies Used: **React.js, Javascript, Html, SCSS/CSS, MUI Core, Figma, Trello, AI For Visualization**

Jul 2023 – Aug 2023
Istanbul, Turkey

UI Developer Intern, JotForm

- Developed an e-signature app with a team.
- Created dynamic and interactive components.
- Utilized JavaScript for building and managing interactions.
- Used SCSS for organized and maintainable CSS code.
- Gained experience in TypeScript for type safety and error detection.

Technologies Used: **React.js, JavaScript, SCSS/CSS, TypeScript**

Oct 2022 – May 2023
Istanbul, Turkey

Software Developer Intern, IPEKYOL

- Developed Windows Form applications in C#.
- Created web applications using ASP .Net MVC architecture.
- Conducted in-depth analyses with DDL and DML queries.
- Showcased expertise in database and SQL domains.

Technologies Used: **C#, ASP.Net, JavaScript, T-SQL, SQL**

Jun 2022 – Jul 2022
Istanbul, Turkey

Network Intern, Türk Telekom

- Obtained detailed information about internet networks.
- Gained practical experience with network configuration and IP networking.
- Worked with L2/L3 protocols, network switches, and MPLS.

Technologies Used: **Network Configuration, IP Networking, L2/L3 Protocols, Network Switches, Multiprotocol Label Switching (MPLS)**

Education

Oct 2018 – Jan 2024
Istanbul, Turkey

Computer Engineering(Bachelor's Degree),
Istanbul University Cerrahpasa [↗](#)

Projects

Apr 2024 – present

DayStory, A User-Centric Note and Event Management Application [↗](#)

- A user-centric note and event management web application that allows users to record and view notes/events for specific dates.
- Users register, log in, and save daily agenda notes.
- Generates AI-based visual images based on user notes with a "Generate AI Image" button.
- Provides an interactive and user-friendly experience for displaying date-based data and visual content creation.
